What is Co-Teaching?

Students frequently have different learning styles and preferences. To help our students achieve grade level content, the Clap supports co-teaching. Having two teachers in the same classroom looks different depending on the activity we're doing in class and the needs of the students. Occasionally, one teacher will pull a small group aside for additional-support instruction while the other teacher assists the rest of the students. This way, students receive additional help when needed. Co-teachers work together through the planning, teaching, and assessing progress. The K0/K1 grade is fortunate to have Ms. Headley, a full time paraprofessional, to complete our teaching team.
