

Dear Roger Clap Families & Community Members,

This month our School Site Council & Equity Roundtable is focused on literacy. We are in the process of developing our instructional focus for next year. Our focus will be on strengthening the experiences students have at our school that support them in

becoming powerful readers and writers. To help us identify what to focus on next year, we would like to hear from families and students about their experiences and ideas about what could be better.

Please join us for our Equity Roundtable on
Tuesday, May 31st from 6-7pm on Zoom.

We will be asking participants to respond to these questions. Members of the school team will listen and take notes. Our goal is to hear from you!

Questions:

- What positive experience has your child/children had in their development as a reader and writer? How did that experience impact your child/children and family?
- What challenging experience has your child/children experienced in their development as readers and writers? How did that experience impact your child/children and family?
- If you could wave a magic wand and strengthen students' literacy experience in our school, what would you change and why?

If you are not able to join us, you can share your experiences and ideas with us through [this form](#). We want to hear from as many members of our community as possible!
